

AGENDA

ORANGE COUNTY POWER AUTHORITY SPECIAL MEETING OF THE BOARD OF DIRECTORS

**Monday, January 26, 2026
11:30 a.m.**

This meeting will proceed as an in-person meeting at 15310 Barranca Parkway, Suite 250, Irvine, CA 92618. In addition, as a convenience to the public, the Orange County Power Authority is providing an option for members of the public to remotely view and participate in the meeting. Further details are below. Please note that, in the event of a technical issue causing a disruption in the remote participation option, the meeting may continue unless otherwise required by law.

Note: Any member of the public may provide comments to the Orange County Power Authority Board of Directors on any agenda items by requesting to speak during Item 4. When providing comments to the Board, it is requested that you provide your name and city of residence for the record. Commenters are requested to address their comments to the Board as a whole through the Chair. Comments may be provided in the following manner:

To provide comments during the meeting, in-person attendees, please fill out the public speaker slip and provide it to the clerk at the beginning of the meeting. Before Item 4, the Chair or Clerk will ask members of the public to join the queue to provide public comment. The queue will remain open for a reasonable amount of time to allow members of the public sufficient time to request to speak and inform the Board of the number of speakers. After such time, the queue will be closed and the members of the public who have joined the queue to speak will be recognized at the appropriate time may speak. To join the queue on Zoom video conference by computer or mobile phone, use the “Raise Hand” feature. If joining the meeting using the Zoom dial-in number, you can raise your hand and join the queue by pressing *9. Members of the public will not be shown on video but will be able to speak when called upon.

Comments shall generally be limited to three minutes when speaking, provided that the Chair may equally reduce each speaker’s time to accommodate a large number of speakers or a large number of agenda items. If you have anything that you wish to be distributed to the Board, please provide it via comments@ocpower.org, who will distribute the information to the Members.

The public may participate using the following remote options:

ZOOM WEBINAR

Please click the link below to join the webinar:

Dial-in: 1-669-900-6833

Webinar ID: 814 2651 3602

1. **CALL TO ORDER**
2. **PLEDGE OF ALLEGIANCE**
3. **ROLL CALL**
4. **PUBLIC COMMENTS ON AGENDA ITEMS**
Opportunity for members of the public to address the Board on any items on the agenda.
5. **2026 RATE STABILIZATION COMMUNICATIONS AND ENGAGEMENT PLAN**

Recommended Actions:
Receive and discuss the presentation and provide feedback to staff.

6. **ADJOURNMENT**

Compliance with the Americans with Disabilities Act

Board of Directors meetings comply with the protections and prohibitions of the Americans with Disabilities Act. Individuals with a disability who require a modification or accommodation, including auxiliary aids or services, in order to participate in the public meeting may contact 949-767-8700. Requests for disability-related modifications or accommodations require different lead times and should be provided at least 72-hours in advance of the public meeting.

Availability of Board Documents

Copies of the agenda and agenda packet are available at www.ocpower.org. Late-arriving documents related to a Board meeting item which are distributed to a majority of the Board prior to or during the Board meeting are available for public review as required by law. Public records, including agenda-related documents, can be requested electronically at clerk@ocpower.org or by mail to 15642 Sand Canyon Avenue, P.O. Box 54283, Irvine, CA 92619-4283. The documents may also be posted at the above website. Such public records are also available for inspection, by appointment, at 15310 Barranca Parkway, Suite 250, Irvine, CA 92618. Please contact clerk@ocpower.org to arrange an appointment.

ORANGE COUNTY POWER AUTHORITY
Staff Report – Item 5

To: Orange County Power Authority Board of Directors

From: Jacquie Henderson, Director of Communications & External Affairs

Approved by: Joe Mosca, Chief Executive Officer

Subject: 2026 RATE STABILIZATION COMMUNICATIONS AND ENGAGEMENT PLAN

Date: January 26, 2026

STRATEGIC GOALS

- Enrich & Grow the OCPA Community: _____
- Prioritize Fiscal Sustainability & Affordability: _____
- Design & Deploy Community-Aligned Customer Programs: _____
- Energize Our Community with Renewable Energy: _____
- Raise Awareness of Community Energy & Advocate for Our Customers: _____
- Not Applicable: _____

RECOMMENDED ACTION

Receive and discuss the presentation and provide feedback to staff.

BACKGROUND

Orange County Power Authority (OCPA) is a locally controlled public agency focused on community support and clean energy progress. As a not-for-profit, OCPA reinvests net revenue back into the communities it serves through customer programs and local clean energy investments. OCPA was founded as a Joint Powers Agreement between cities with five clear objectives:

1. To reduce greenhouse gas emissions related to power use,
2. To provide electric power and other forms of energy at a competitive cost,
3. To carry out programs for ratepayers of all income levels that reduce energy consumption,
4. To stimulate and sustain the local economy by developing local jobs, and
5. To promote long-term electric rate stability, energy security, and reliability through local control of electric generation resources.

Since launching service in 2022, OCPA has set its rates by indexing to Southern California Edison's (SCE) generation rates. For 2026, the OCPA Board of Directors has approved a rate stabilization approach that maintains OCPA's 2025 generation rates for 2026. This approach was adopted to provide customers with greater rate stability and predictability, taking into account the circumstances discussed at the Board of Directors Regular Meeting on January 12, 2026.

This change to OCPA's standard rate design and indexing approach provides an opportunity for communications and engagement with customers and member communities. The goal is to ensure clear, concise awareness and understanding of the rate stabilization approach, as well as the outsized value of being part of the OCPA community.

ANALYSIS AND DISCUSSION

The Board of Directors requested a plan for how OCPA will communicate with customers about its 2026 rate stabilization. Attached is the detailed plan that will be reviewed for discussion and feedback, within which are the following key points:

2026 Rates Remain Consistent

- OCPA's 2025 generation rates are staying the same in 2026.
- There will be no rate change to the OCPA's part of the bill.
- OCPA is providing cost reliability and predictability in 2026.

OCPA's Mission

- Decrease greenhouse gas emissions
- Provide energy choice and competition
- Ensure rate stability and predictability
- Support energy affordability and renewable energy equity

Direct Bill Comparison to Southern California Edison (SCE)

- While OCPA's competitive margin to SCE is diminished at the start of the year, OCPA's rates are on par with SCE's average generation rate over the past three years.
- SCE rates are volatile and fluctuate four to six times per year.

Customer Support

- OCPA will launch a Green Discount Program for low-income and cost-sensitive customers.
- Subject to California Public Utilities Commission (CPUC) approval in February 2026, OCPA will administer its Clean Energy Access Program, which provides 100 percent solar energy to customers in disadvantaged communities at a full bill discount of 20 percent.

Attachment A provides a detailed plan for 2026 rate stabilization communications and engagement. It will be reviewed at the Special Meeting for discussion and feedback.

FISCAL IMPACT

All items included in the draft communications and engagement plan are within budget.

January 26, 2026

OCPA 2026 Rates and Renewable Energy Plans Communications and Engagement

**OCPA's mission is to
provide renewable
energy at competitive
rates and equitably
reinvest to support
sustainable communities.**

Shifting Landscape

2025

OCPA focused on discounted rates and took action to achieve this (deferred revenue)

- 2+ Billion lbs. carbon emissions reduced
- \$600,000+ invested in communities and CBOs
- 200+ free Level 2 EV chargers provided
- 1,500 Energy Efficiency Kits provided

PCIA
recalculations

SCE artificial
rate reduction

2026

OCPA will focus on rate stability and predictability by maintaining the same rates (competitive margin gone for now)

- Community Power Plan coming Q1 26!
- Direct-to-Renter electrification program launching March
- Green Discount Program to support low-income / cost-sensitive customers
- Clean Energy Access Program

Key Messaging

2026 Rates Remain Consistent

- OCPA's 2025 generation rates are staying the same in 2026.
- There will be no rate change to the OCPA's part of the bill.
- OCPA is providing cost reliability and predictability in 2026.

OCPA's Mission

- Decrease greenhouse gas emissions
- Provide energy choice and competition
- Ensure rate stability and predictability
- Support energy affordability and renewable energy equity

Direct Comparison Southern California Edison (SCE)

- While OCPA's competitive margin to SCE is diminished at the start of the year, OCPA's rates are on par with SCE's average generation rate over the past three years.
- SCE rates are volatile and fluctuate four to six times per year.

Customer Support

- OCPA will launch a Green Discount Program for low-income and cost-sensitive customers.
- OCPA received preliminary approval for its Clean Energy Access Program that provides 100% solar energy to customers in disadvantaged communities at a full bill discount of 20%.

Community Power Plan for Public Review and Comment

The Community Power Plan will:

- Identify community energy needs and priorities – like affordable ways to cool homes during heat waves.
- Develop a strategy to address these priorities through new program offerings and partnerships with existing programs.

Community Power Plan for Public Review and Comment

To advance the mission of reliably delivering clean-energy solutions, Orange County Power Authority (OCPA) has developed a Community Power Plan to guide the development of energy programs and strategies that respond directly to community priorities and support long-term sustainability across our member cities.

Development of the Community Power Plan was guided by the core objectives of meeting local needs and aligning with broad climate and energy goals. The reference process included a comprehensive needs assessment informed by multilingual outreach, an unbiased assessment of existing programs, and a review of best practices from other communities. The resulting Community Power Plan is a framework, and results-oriented framework for community energy program planning.

Community has played a vital role in shaping the Community Power Plan, and we are seeking additional feedback before finalization. The plan is available below for public review and comment from December 30 to December 25, 2020. Relevant feedback will be incorporated into the plan for presentation to the OCPA Board of Directors.

How to Get Involved

- Review the information on this page.
- Share this page with others.
- Find the Community Power Plan and submit your questions and/or suggestions.

Key Dates

- November 2014 - November 2015: Assessment is conducted.
- December 2015: Community Power Plan presented to the OCPA Community Advisory Committee.
- December 2016 - January 2017: Public engagement period.
- January 2017: Final Community Power Plan presented to the OCPA Board of Directors for adoption.
- February 28, 2018: Community Power Plan published.
- March 2019: Development of new program designs.

SCE Rate Changes Explained

You're doing it right – saving big on basic electricity usage during the off-peak period. Across the region, electricity rates are higher during peak times, when there's a strain on the power grid. We're here to help you understand Southern California Edison's (SCE) rate changes, how they affect Orange County Power Authority (OCPA) members, and what you can do to prepare for the changes. We're here to help you understand what you can expect moving forward, and provide practical steps to help lower your monthly bills.

Electricity service has two components:

- Generation (power creation): The cost of electricity generation, including fuel, labor, and equipment.
- Delivery (getting power to you): The cost of getting electricity to your home, including transmission, distribution, and delivery systems, and taxes. These factors are the same for all power providers, and are set by the state utility commission.

Generation accounts for about 40% of the cost of electricity and transmission and generation – or delivery – is about 60%.

When SCE raises delivery rates, it affects everyone in the service area equally, whether you're a SCE customer or not.

According to a report from the Public Utilities Office, Edison's delivery rates increased by 1.5% in January 2020, and are projected to increase by 1.5% in January 2021. Edison's delivery rates have increased by 2.5% since January 2020- April 2020 – SCE's delivery rates have increased by 2.5%.

When SCE changes its generation rates, SCE adjusts its generation rate to the same percentage. In 2019, SCE's generation rates increased by 2.5% and its delivery rates increased by 1.5%. SCE's generation rates increased by 2.5% in 2020, and its delivery rates increased by 1.5% in 2021. SCE's generation rates increased by 2.5% in 2020, and its delivery rates increased by 1.5% in 2021. SCE's generation rates increased by 2.5% in 2020, and its delivery rates increased by 1.5% in 2021.

Average Electric Generation and Delivery Costs (\$/MWh) Since 2019

The chart shows the average electric generation and delivery costs in dollars per megawatt-hour (MWh) from 2019 to 2021. The generation costs are represented by blue bars and the delivery costs by orange bars. The total cost is the sum of both.

Average Residential Electricity Charges by Month in Tracy, CA (2019)

The chart shows the average monthly residential electricity charges in dollars for Tracy, CA in 2019. The charges are broken down into generation, delivery, and taxes.

Share your Story!
We're inviting our valued customers to share their Orange County Power Authority (OCPA) story! If you've benefited from one of our programs or rebates, saved energy in your home or business, or just want to share your passion for having the choice of community energy, reach out to our team at info@ocpower.org. You could be featured in a future newsletter or social media post!

OCPA Earns Three Awards for Community Support
We're proud to announce that [OCPA has been recognized with three awards](#) for leadership in sustainability and clean energy. Each honor reflects our ongoing commitment to expanding access to clean energy at competitive rates, and our dedication to creating a cleaner future for the communities we serve.

- ["2025 Energy Visionary Award"](#) from the Asian Business Association of Orange County
- ["Innovator Green Business"](#) by the California Green Business Network
- ["Community Sustainability & Partnership Award"](#) from the Orange County Iranian American Chamber of Commerce

Thank you to our valued community partners for celebrating the work of OCPA! These recognitions enforce our team's dedication to diverse partners who help drive meaningful progress every day.

Celebrating Community Impact
To celebrate three years of providing community choice energy to residents in Orange County cities, OCPA was excited to present Community Impact Awards to sustainability champions from across our member communities. Honorees included:

- [The City of Buena Park's Office of Sustainability](#), recipient of the Community Leadership Award, for launching climate action efforts and creating the Sustainabuddies™ initiative
- [The UC Irvine ANTrepeneur Center](#), awarded the Non-Profit / Community-Based Organization Leadership Award for equipping students with mentorship and resources to turn sustainable ideas into real-world solutions
- [Bloom Again of Fountain Valley](#), winner of the Small Business Leadership Award for reducing waste by giving pre-loved goods a second life
- [Sprouts Farmers Market Fullerton Distribution Center](#), honored with the Commercial Leadership Award for cutting 725,000 miles of emissions annually by relocating its LEED-certified facility closer to stores

Solar Ovens, Sun-Powered Cars and Girl Scout Badges!
The Girl Scouts of Orange County utilized OCPA's Bright Futures Grant to create sustainability education materials, complete with hands-on learning opportunities like solar-powered ovens and cars. [A fun and creative way to inspire the next generation of clean energy advocates!](#)

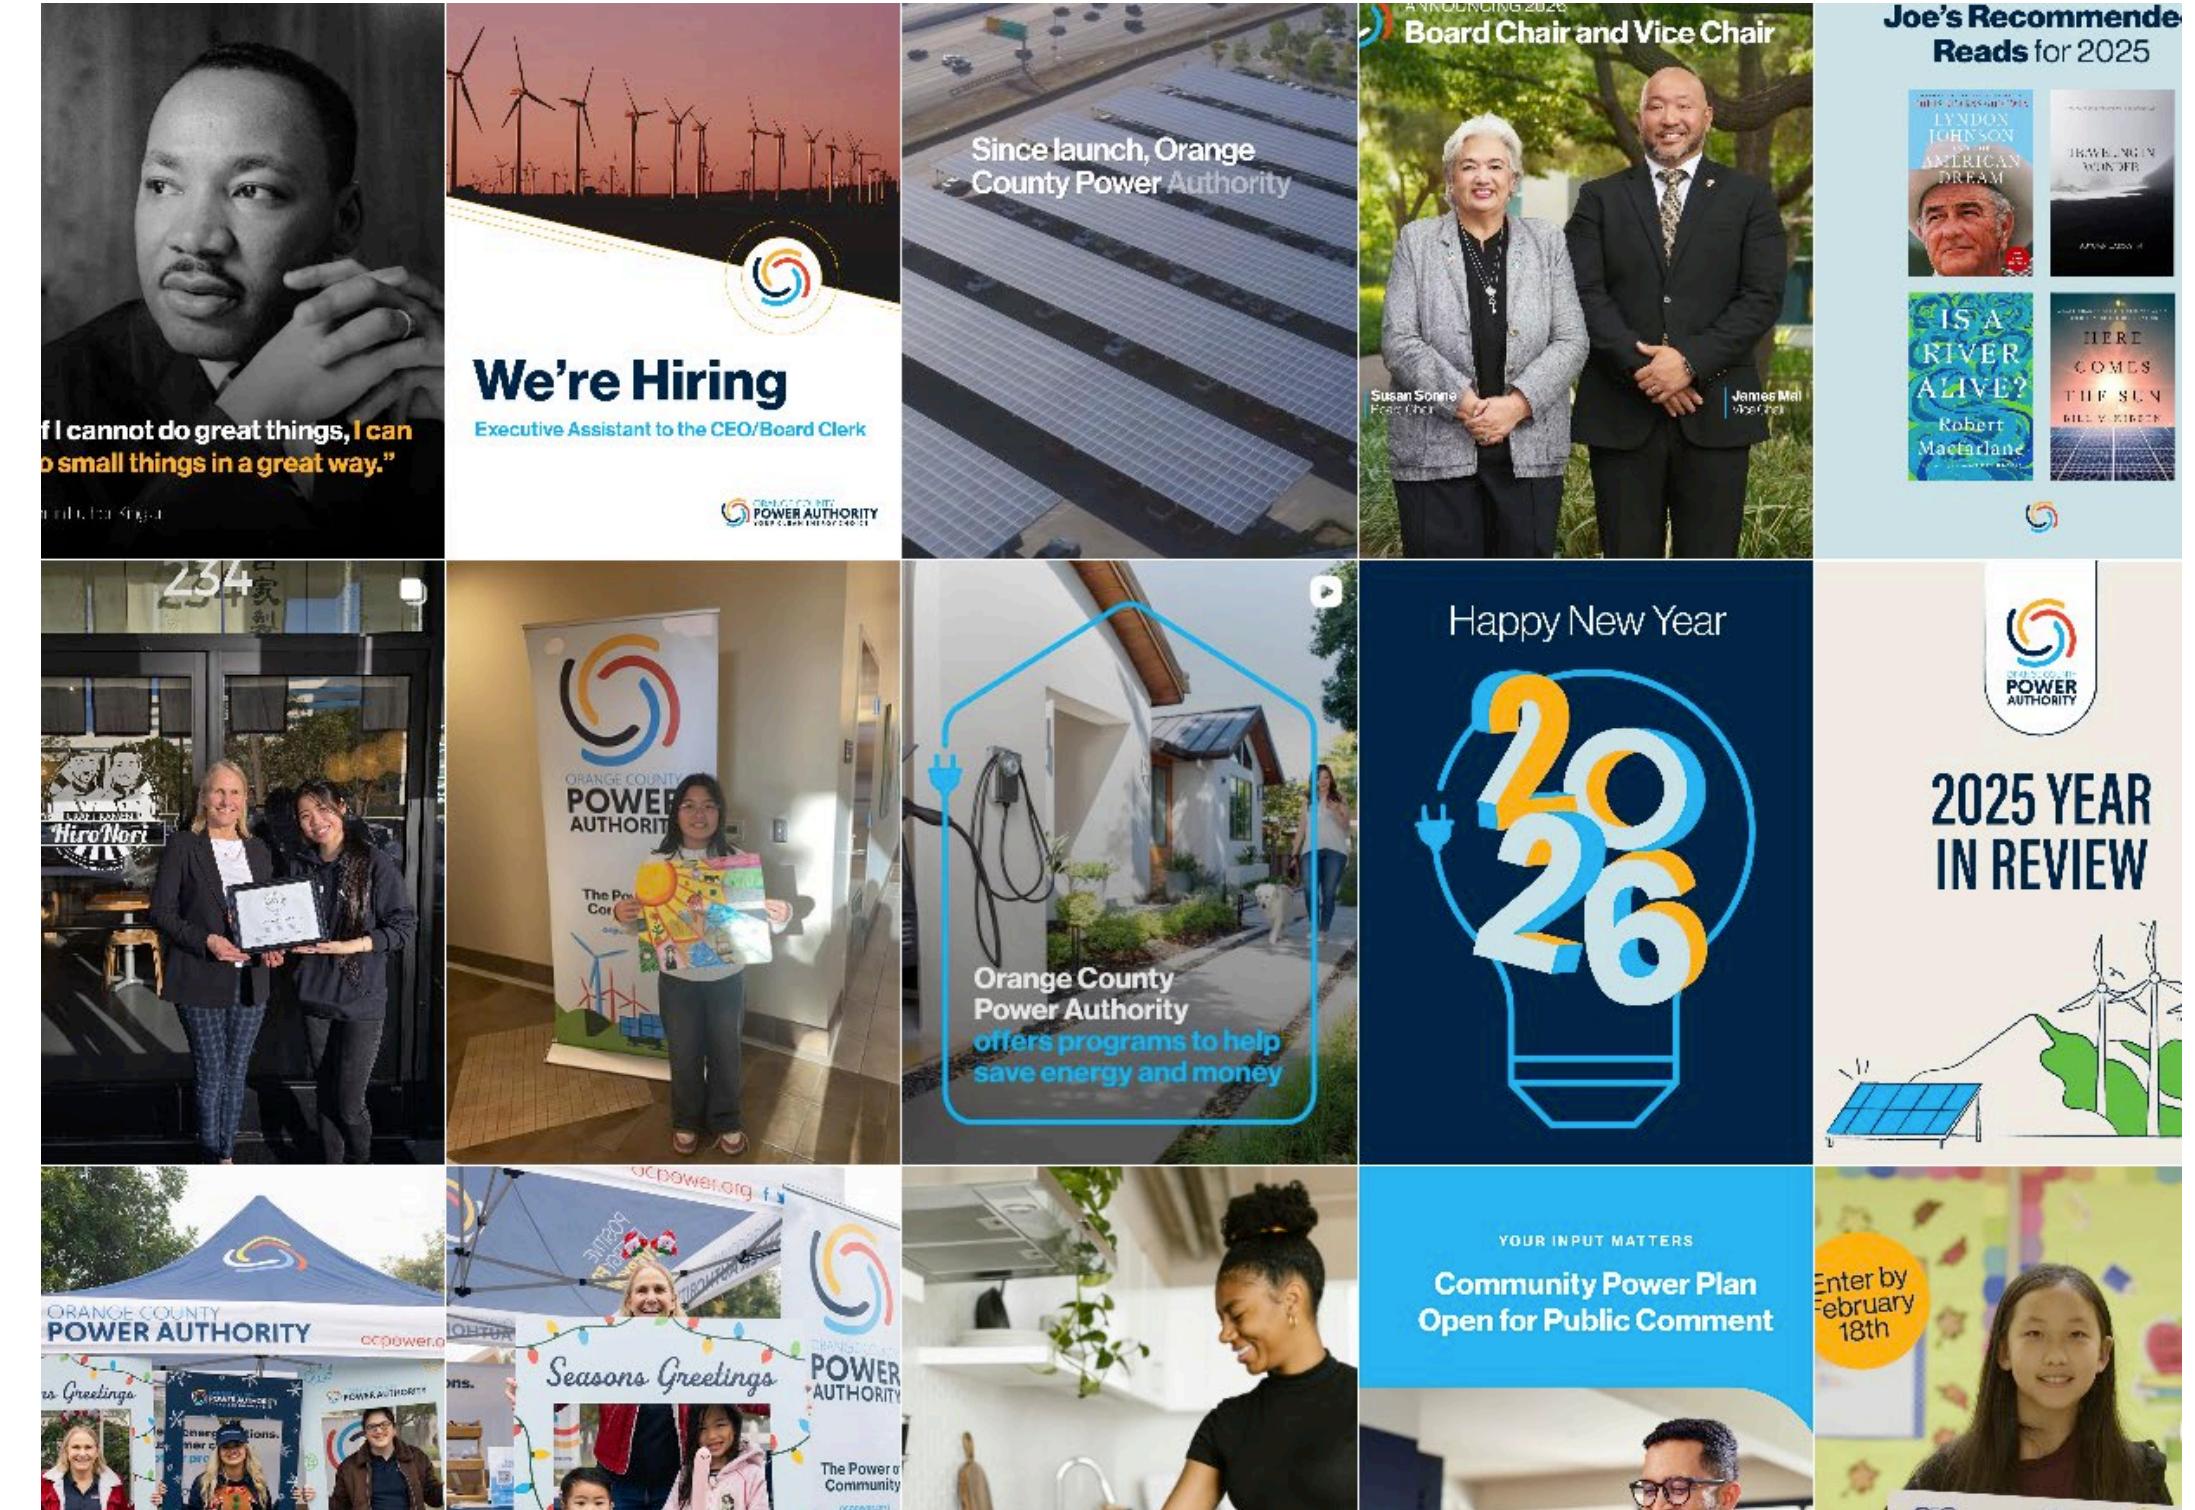

Our very own Nataly Morales, Energy Programs Analyst, had the pleasure of visiting the Girl Scouts to present them with OCPA badges to commemorate their sustainability efforts.

CARE & FERA 재정지원 프로그램

Orange County Power Authority (OCPA)는 여러분을 지원합니다. 더 절약하고 건강한 미래를 만드는 데 참여하는 일과 가정의 경제에 무리 주지 않아야 합니다. OCPA 고객은 Southern California Edison (SCE)에서 운영하는 오렌지카운티 에너지 요금 지원 프로그램 (CARE)과 가족 전기 요금 지원 프로그램 (FERA)을 통해, 모든 규모의 가정이 자격요건을 충족할 경우 월별 전기요금을 절감할 채권 지원을 받을 수 있습니다.

CARE
오렌지카운티 에너지 요금 지원 프로그램
자격을 충족하는 가정은 전기요금의 32.5%를 절감할 수 있습니다.

FERA
가족 전기 요금 지원 프로그램
자격을 충족하는 가정은 전기요금의 18%를 절감할 수 있습니다.

자격 요건
가족구성원 수와 귀하의 집, 펜도, 아파트, 또는 모발률에 거주하는 모든 사람들의 총소득에 따라 CARE 또는 FERA 프로그램 중 하나의 지원 자격을 받을 수 있습니다.

2025년 6월 1일부터 2026년 5월 31일까지 적용되는 소득 기준은 다음과 같습니다:

가족구성원 수	CARE 소득 자격 기준	FERA 소득 자격 기준
1-2	\$42,300	\$42,301 - \$52,875
3	\$63,300	\$63,301 - \$66,625
4	\$64,300	\$64,301 - \$68,375
5	\$75,300	\$75,301 - \$84,325
6	\$86,300	\$86,301 - \$107,875
7	\$97,300	\$97,301 - \$121,625
8	\$108,300	\$108,301 - \$136,375
추가 1인당	\$11,000	\$11,000 - \$13,750

**상한선 계산 = 연방 인구 기준선의 200% (CARE) + 1달러
*상한선 계산 = 연방 인구 기준선의 200% (CARE) + 1달러
*상한선 계산 = 연방 인구 기준선의 250% (FERA)

Contribuya
a darle forma al
Futuro de la Energía

La Autoridad de Energía del Condado de Orange (OCPA) está desarrollando **un plan a largo plazo para nuevos programas de energía y ahorro de costos**, basado en los aportes de la comunidad sobre las necesidades locales.

El Plan de Energía Comunitaria:

- Identificar las necesidades y prioridades energéticas de la comunidad, como formas asequibles de enfriar las viviendas durante las olas de calor
- Desarrollar un plan de acción para abordar estas prioridades a lo largo del tiempo a través de nuevas opciones de programación y asociaciones con programas administrados localmente

¡Queremos su opinión!

Comprender las necesidades de nuestras comunidades es una parte esencial del desarrollo de un Plan de energía Comunitaria. OCPA está recopilando comentarios de los residentes y las empresas de diversas maneras, entre ellas:

- Encuestas digitales
- Eventos comunitarios
- Debates de mesas redondas

¡Aprenda más sobre el Plan de Energía Comunitaria de OCPA y haga la encuesta por una oportunidad de ganar **una tarjeta de regalo de \$250!**

Suscríbase al boletín informativo de OCPA para saber cuándo estaremos en su comunidad!

The Power of Community Energy

Rate Comparison Notification

As part of our mutual commitment to support your energy choice, Orange County Power Authority (OCPA) and Southern California Edison (SCE) have partnered to provide you with a comparison of typical residential electric rates, average monthly charges, and generation portfolio contents.

For information on OCPA's generation rates, please visit OCPower.org or call 1-866-2-OCPower.

Please visit sce.com/cca, under Program Enrollment, for the complete SCE/OCPA rate comparison or call 1-800-974-2356.

The Executive Director of the California Public Utilities Commission has authorized an extension on the deadline to mail these notices. The purpose of this mailer is to help you make a comparison between Orange County Power Authority (OCPA) and Southern California Edison (SCE) rates and see the renewable energy mix of each to decide which service and rate works for you. The chart below illustrates the estimated electricity costs for a typical "CARE" residential customer with an average monthly energy usage of 520 kilowatt hours (kWh). If you are a customer on the FERA rate, please refer to the Joint Rate Comparison on the OCPA and SCE websites. This comparison is based on OCPA rates approved by its Board of Directors and effective as of July 1, 2024. SCE rate options are based on rates effective June 1, 2024. Both OCPA and SCE's rates are subject to change.

Electric Power Generation Mix*	SCE Power Mix	OCPA Basic Choice	OCPA Smart Choice	OCPA 100% Renewable Choice
Renewable Procurements	37.6%	10.1%**	58.0%**	100.0%
Biomass & Biowaste	0.1%	0.0%	17.4%	8.8%
Geothermal	5.2%	0.0%	9.2%	17.1%
Eligible Hydroelectric	0.7%	0.0%	0.0%	3.9%
Solar	19.8%	0.6%	4.3%	43.9%
Wind	11.7%	9.5%	27.1%	26.2%
Coal	0.0%	0.0%	0.0%	0.0%
Large Hydroelectric	4.5%	0.0%	24.0%	0.0%
Natural gas	20.0%	0.0%	0.0%	0.0%
Nuclear	9.1%	27.5%	18.0%	0.0%
Other	0.1%	0.0%	0.0%	0.0%
Unspecified Power	28.8%	62.4%	0.0%	0.0%
Total	100.0%	100.0%	100.0%	100.0%

* Based on Year Ending December 31, 2023 Data
** OCPA's energy portfolio includes unbundled Renewable Energy Credits (RECs) in its Basic Choice (28.0%) and Smart Choice (11.6%) plans. These RECs increase the total renewable energy for each plan to 35% and 69%, respectively. Visit OCPower.org/JRM for more information.
Unspecified power is electricity that has been purchased through open market transactions and is not traceable to a specific generation source. Unspecified sources of power are typically a mix of all resource types, and may include renewables.

All of OCPA's rate products are open to all customers. Generation Rate reflects the cost of producing or purchasing electricity to power your residence. This rate depends on usage and will vary depending on your service provider and rate plan. SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your residence. Surcharges represent the Cost Responsibility SurchARGE (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA).

The CRS is a group of four surcharges associated with power purchases made on behalf of customers prior to a customer's switch to a CCA as well as non-passable charges related to wildlife fund and bond costs. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.
For additional rate information please contact Orange County Power Authority at OCPower.org or (866) 262-7693 and SCE at sce.com/cca, under Program Enrollment, or (800) 974-2356.

Understanding Your 2026 Energy Rates

Not-for-profit Community Choice Aggregation (CCA) agencies across the state of California – 25 total serving over 15 million people – create choice in the energy market long dominated by investor-owned utilities. All community choice agencies, including Orange County Power Authority (OCPA), have community-focused goals, including protecting customers from rate volatility over the long term.

For 2026, the California Public Utilities Commission (CPUC) approved a change to generation rate calculations that impact all CCAs and their customers. This is a structural and statewide challenge. **OCPA is providing customers with stability and predictability in this time of fluctuating costs by maintaining its 2025 rates in 2026 as a first step toward uncoupling from SCE.**

OCPA will launch a Green Discount Program in mid-2026 specifically to support low-income and cost-sensitive customers. Under this program, OCPA will offer an energy plan with 40% carbon-free energy priced at 1% less than SCE's equivalent generation rate. The program will be available to non-solar (Net Energy Metering/NEM) residential customers with participation priority given to CARE and FERA customers.

OCPA also received CPUC approval for its Clean Energy Access Program. Slated to launch in Q3 2026, it will provide eligible low-income residents 100% solar energy at a total bill discount of 20%. This is on top of any existing bill discounts, and once enrolled, customers remain in the program long-term.

Why does Southern California Edison (SCE) charge the Power Charge Indifference Adjustment (PCIA)?

How is the Power Charge Indifference Adjustment (PCIA) calculated?

Why is the Power Charge Indifference Adjustment (PCIA) of concern to Community Choice Aggregators (CCA)?

Solar and Net Energy Metering (NEM)

How does this work with my solar panel system?

How does OCPA work with my regular billing and annual true-up?

If my solar panels produce more energy than I use, do I continue to get compensated if I participate in OCPA?

Need Help Paying Your Bill? Orange County Power Authority is here to help.

Take advantage of the financial aid resources available to you.

California Alternate Rates for Energy (CARE)

Reduces energy bills by about 30%. Qualification is based on participation in public assistance programs, or on household income.

Arrearage Management Plan (AMP)

Debt-forgiveness program for customers with at least \$500 in past due electricity bills with some portion of the debt at least 90 days past due.

Low Income Home Energy Assistance Program (LIHEAP)

Federally funded program to assist low-income households that pay a high portion of their income to meet their energy needs.

Family Electric Rate Assistance (FERA)

Reduces electric bills by 18%. Qualification is based on participation in public assistance programs, or on household income.

Medical Baseline

If someone in your household needs powered medical equipment, this program provides additional energy to your normal baseline allocation, saving you money.

Payment Arrangement

Flexible payment plans through SCE to spread out the balance of energy bills up to 12 months.

Program details are available at www.ocpower.org/energy-programs/bill-and-payment-assistance/ or call our Customer Support Team at 866-262-7693 to learn more.
