

# Orange County Power Authority

## Power Resources Director

Orange County Power Authority (Authority) is a new community choice aggregator (CCA) in Orange County that will launch phased electric service beginning in 2022. Upon full implementation, the Authority will service over 278,000 accounts in Southern California Edison territory. We serve four member cities (Buena Park, Fullerton, Huntington Beach, and Irvine) with the potential of expansion throughout the region. For more information, please visit our website at [www.ocpower.org](http://www.ocpower.org)

The Authority is seeking to fill a full-time position to serve as its Power Resources Director.

### APPLICATION PROCESS

A detailed resume and cover letter, along with three professional references, must be submitted by 5:00 p.m. (PST) on June 28, 2021, to [bprobolsky@ocpower.org](mailto:bprobolsky@ocpower.org)

### SUMMARY

Under the direction of the Chief Executive Officer, this position manages and plans the activities of major technical projects or highly complex contracts within the Authority. Oversees the most complex and technical energy resource planning and procurement activities for the Authority; oversees scheduling and settlement with the California Independent System Operator (CAISO); provides advanced-level technical guidance to subordinate staff and contractors. Performs related work as required.

### DISTINGUISHING CHARACTERISTICS

This position will serve as a high-level technical advisor on resource projects or contracts and/or manage the most complex short and/or long-term energy resources planning and procurement activities.

This position will collaborate extensively with the Authority's Portfolio Manager and Scheduling Coordinator and requires extensive and in-depth knowledge of energy trading and scheduling and the related federal, state, and local laws and regulations.

### EXAMPLES OF DUTIES / FUNCTIONS

Management reserves the right to add, modify, change, or rescind the work assignments of different positions and make reasonable accommodations so that qualified employees can perform the job's essential functions. Duties and responsibilities include, but are not limited to:

- Oversees and undertakes complex projects related to power forecasting, planning, procurement, and validation.
- Undertakes and approves energy purchases or sales of surplus energy, subject to Risk Management Policies.
- Oversees CAISO scheduling and settlements.
- Manages and plans the activities of a major technical project or contract. Acts as a technical advisor on the most complicated projects and contracts.
- Develops, manages, and directs the implementation of short and/or long-term operating financial plans related to energy portfolios and operations.
- Manages and oversees the most financially complex and highest risk energy resource planning, contracting, negotiations, services, and agreements.
- Resolves disputed provisions of existing contracts.
- Collaborates and builds contacts with other organizations and representatives, regulatory agencies, and the public.
- Represents the Authority to outside agencies and organizations.
- Recommends and monitors changes to organizational processes and policies to ensure

compliance with energy market requirements, improve operations, mitigate risks, increase revenue, and decrease costs.

- Provides direction in implementing policies and procedures and ensures action plans are in support of the Authority's goals, objectives, and mandates.
- Plans, implements, and evaluates the Authority's programs and initiatives related to energy resource projects.
- Manages and conducts marked-to-market rate and cost of service studies.
- Oversees and may perform the most complex studies, evaluates analytical and forecasting models and systems surveys, reviews and analyzes data, and prepares recommendations related to energy resources planning, supply and demand, energy risk management, CAISO scheduling and settlements, and forecasting.
- Keeps abreast of power supply and energy developments and programs and evaluates opportunities for new sources or available technology.
- Directs and coordinates audits on power purchases and sale agreements.
- Researches and prepares various highly technical and administrative reports; prepares written correspondence on the more sensitive issues; prepares reports and presents at the Authority's Board of Director's meeting periodically and upon request.
- Supervises subordinate supervisory and other staff to include: prioritizing and assigning work; conducting performance evaluations; ensuring staff is trained; and making hiring, termination, and disciplinary recommendations. Evaluates training needs and workload balance for staff and prepares plan for implementation. Provides advanced technical guidance to contractors and consultants.
- Performs other related duties as required

### **QUALIFICATIONS**

#### **Minimum Qualifications**

Education and Experience: A Bachelor's degree from an accredited college or university in Business, Economics, Engineering, Environmental Studies, Law, Public Administration/Public Policy, Natural Resources, Statistics, or related field to utility business AND six (6) years of progressively responsible related experience overseeing and administering energy resources operations, planning, purchasing, scheduling, or contract negotiations. A Master's degree is highly desirable.

Possession of a valid State of California driver's license is required.

Acceptable Substitution: A Master's degree in a related field may be substituted for up to two (2) years of the required experience. There is no substitution for the required Bachelor's degree.

#### **Other Qualifications**

Job Expertise: Demonstrates knowledge of and experience with applicable professional/technical principles and practices and federal and state rules and regulations, including but not limited to: energy management, which may include experience with Electric Utilities, Electricity Generators or suppliers, California Independent System Operator (CAISO), California Public Utilities Commission, California Energy Commission, contract experience in power purchase agreements and/or the Edison Electric Institute agreement, and short-term Western Systems Power Pool (WSSP) transactions, knowledge of CAISO scheduling and settlements operations, knowledge of renewable, green-house gas-free and conventional electricity supplies and strong market knowledge.
