

Level up with local clean energy

Inspiring Irvine's Business Community to Lead in Sustainability

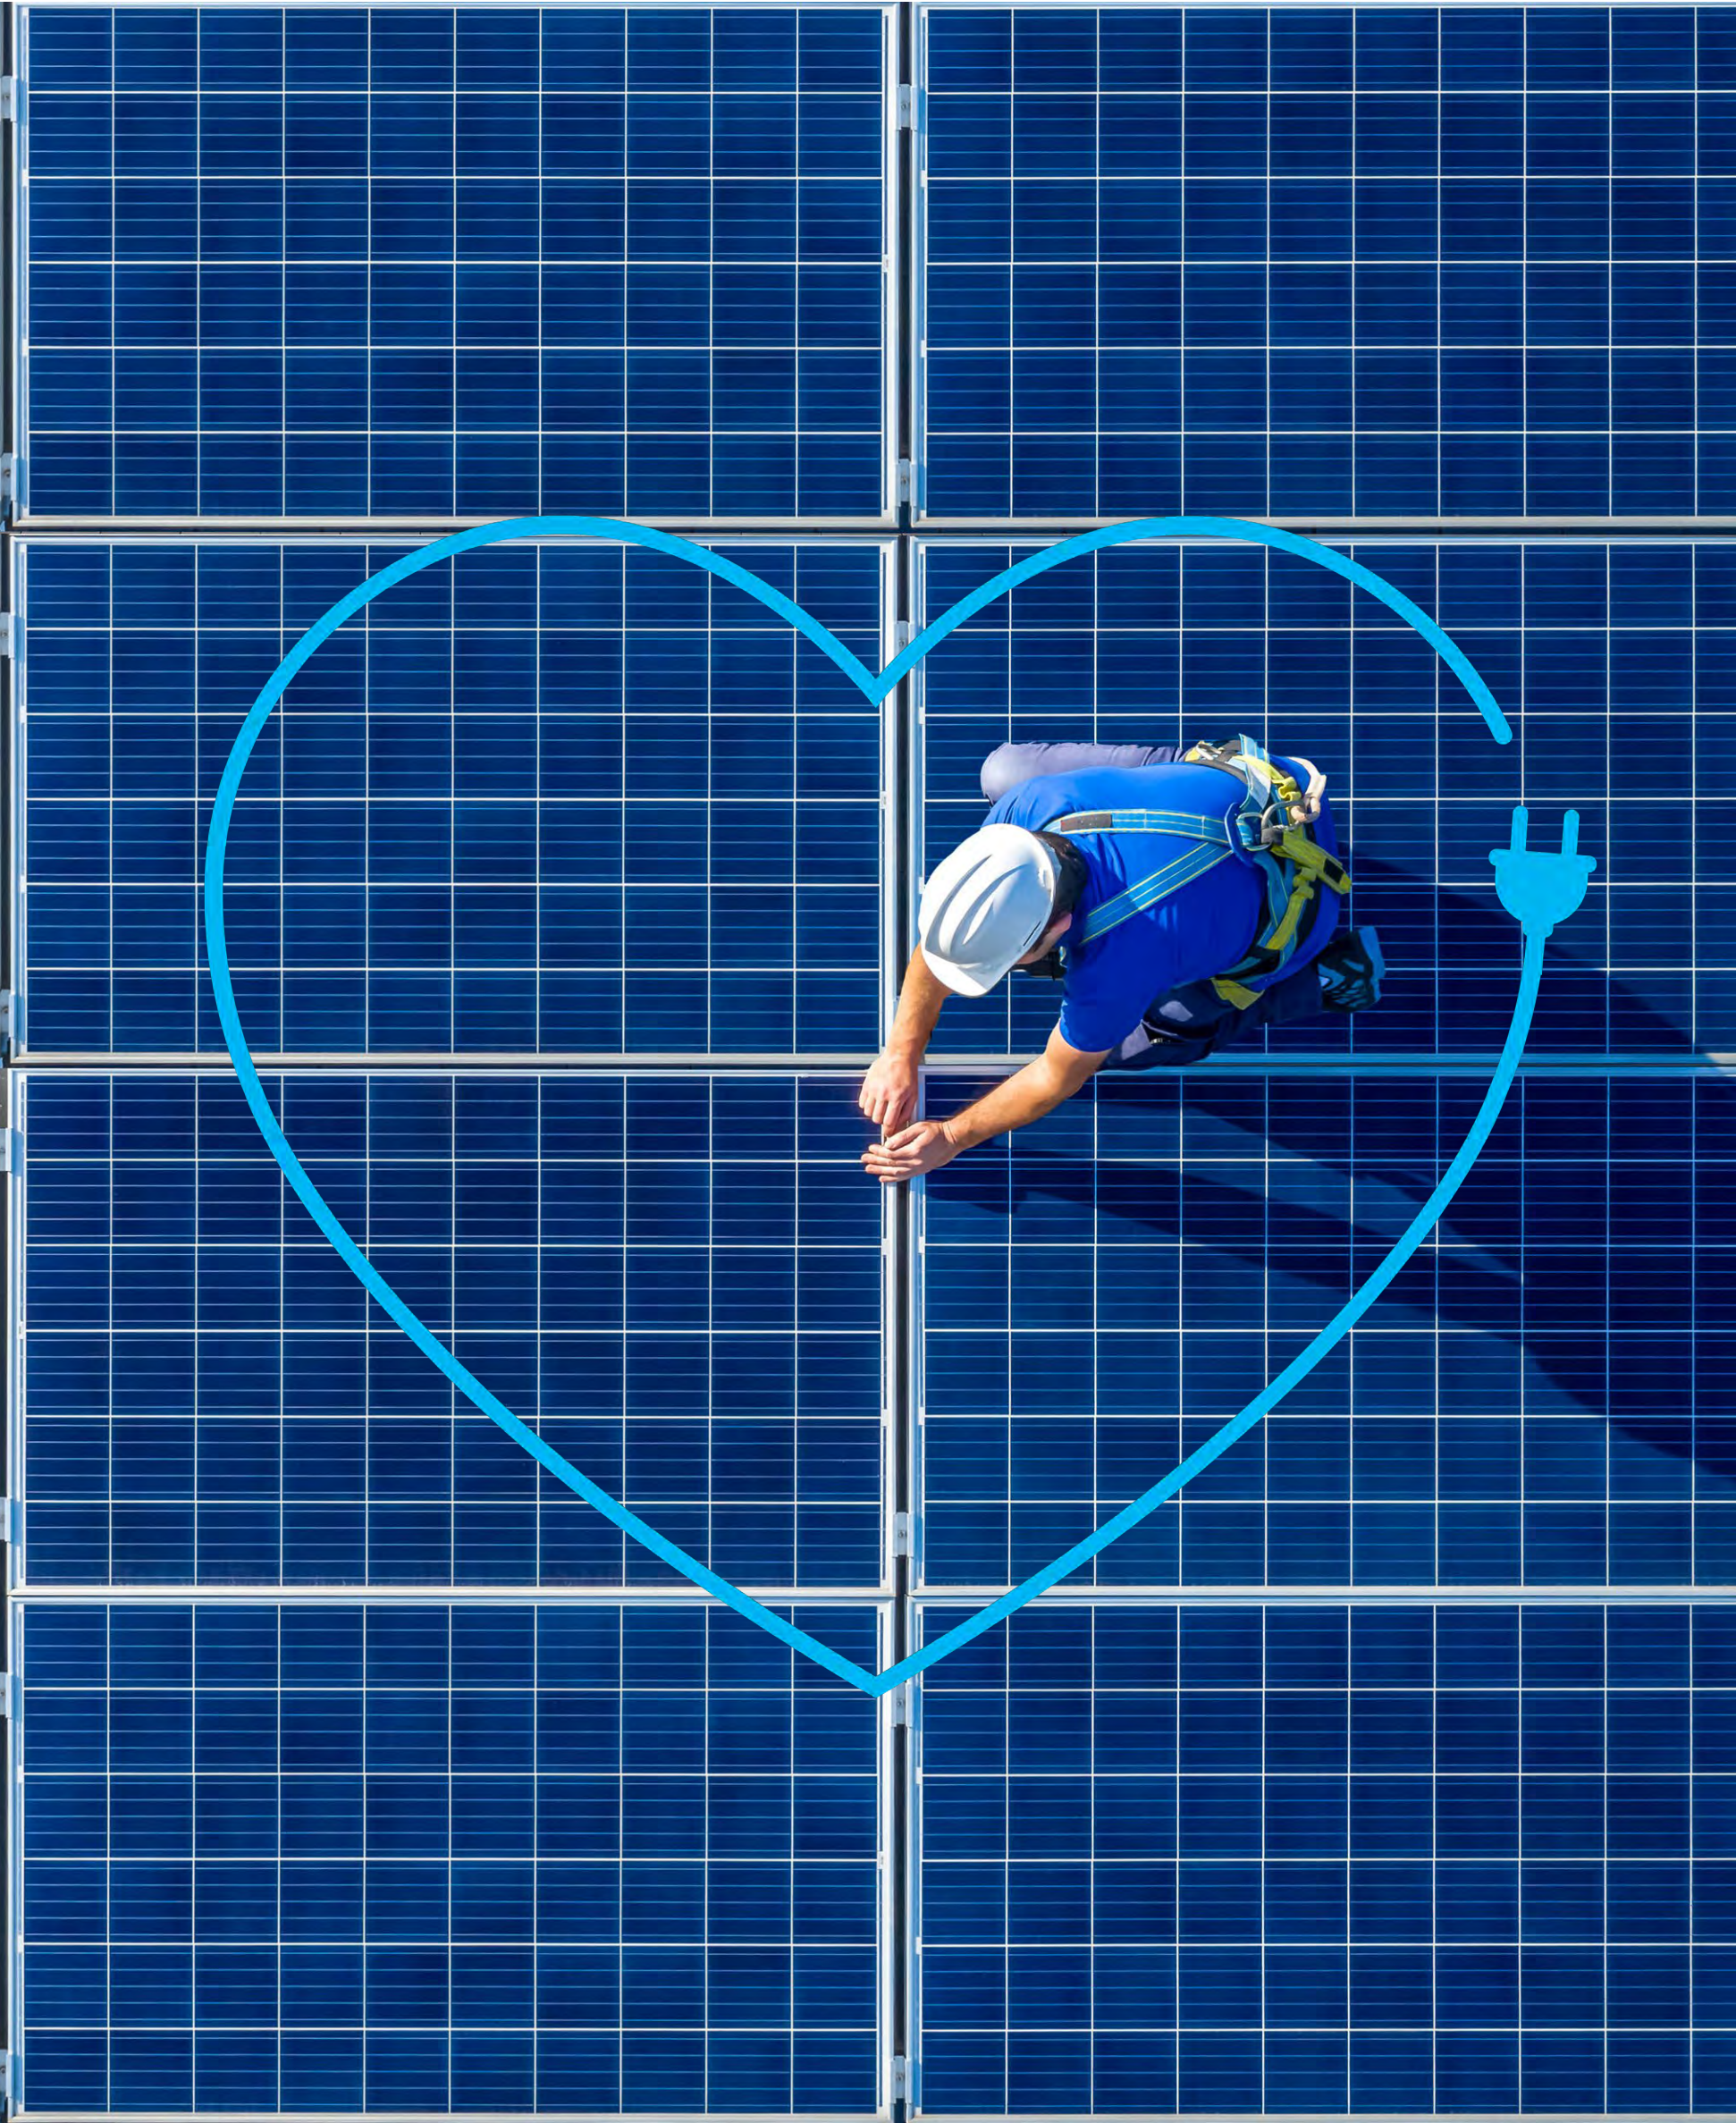

Your business has the power to lead.

Irvine businesses make a measurable impact every day.

Opting up to Smart Choice or 100% Renewable Choice puts that leadership into action – reducing reliance on fossil fuels, cutting carbon emissions, and supporting the local clean energy transition.

Choosing cleaner power isn't just an energy decision; it's a strategic one that reflects your values, your vision, and your commitment to the community you serve.

Clean energy isn't a cost, it's a benefit.

Cleaner energy means cleaner air, healthier workplaces, and stronger communities.

Customers, investors, and employees increasingly expect businesses to demonstrate environmental responsibility. Opting up with OCPA shows that your organization is focused on long-term sustainability, resilience, and smarter energy use.

And because OCPA is local and not-for-profit, your choice directly supports Orange County's future.

Local control. Real savings. Cleaner power.

When you partner with OCPA, you choose a clean energy provider designed for our community.

Cleaner power at stable rates

Renewable energy plan options that fit budgets and sustainability goals

Locally controlled

Policies and rates set by local leaders close to home, not by a distant corporate utility board

Reinvesting in our communities

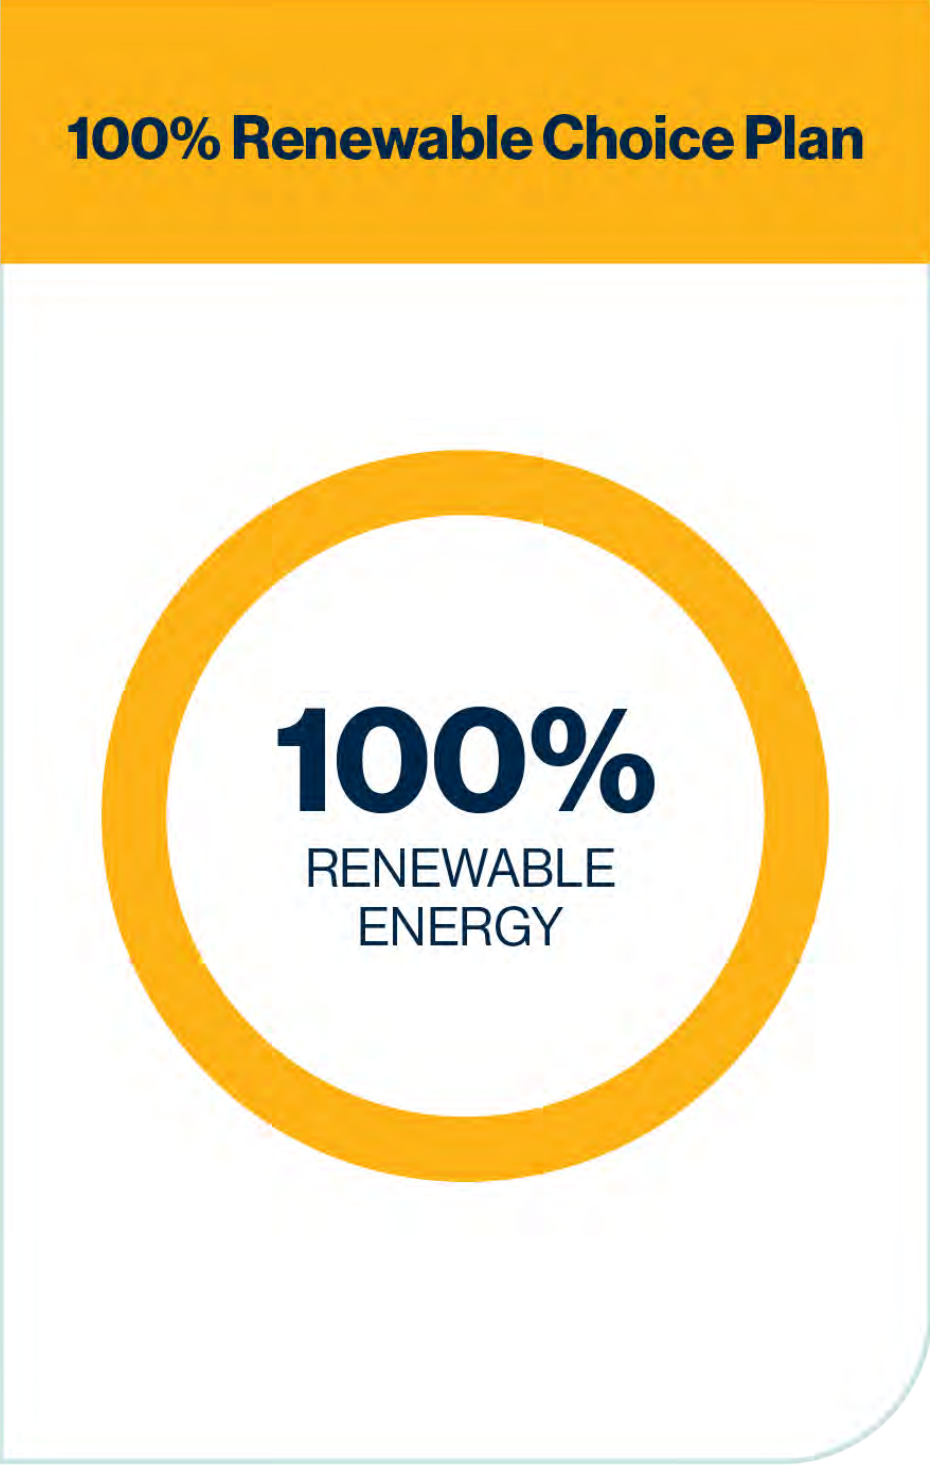

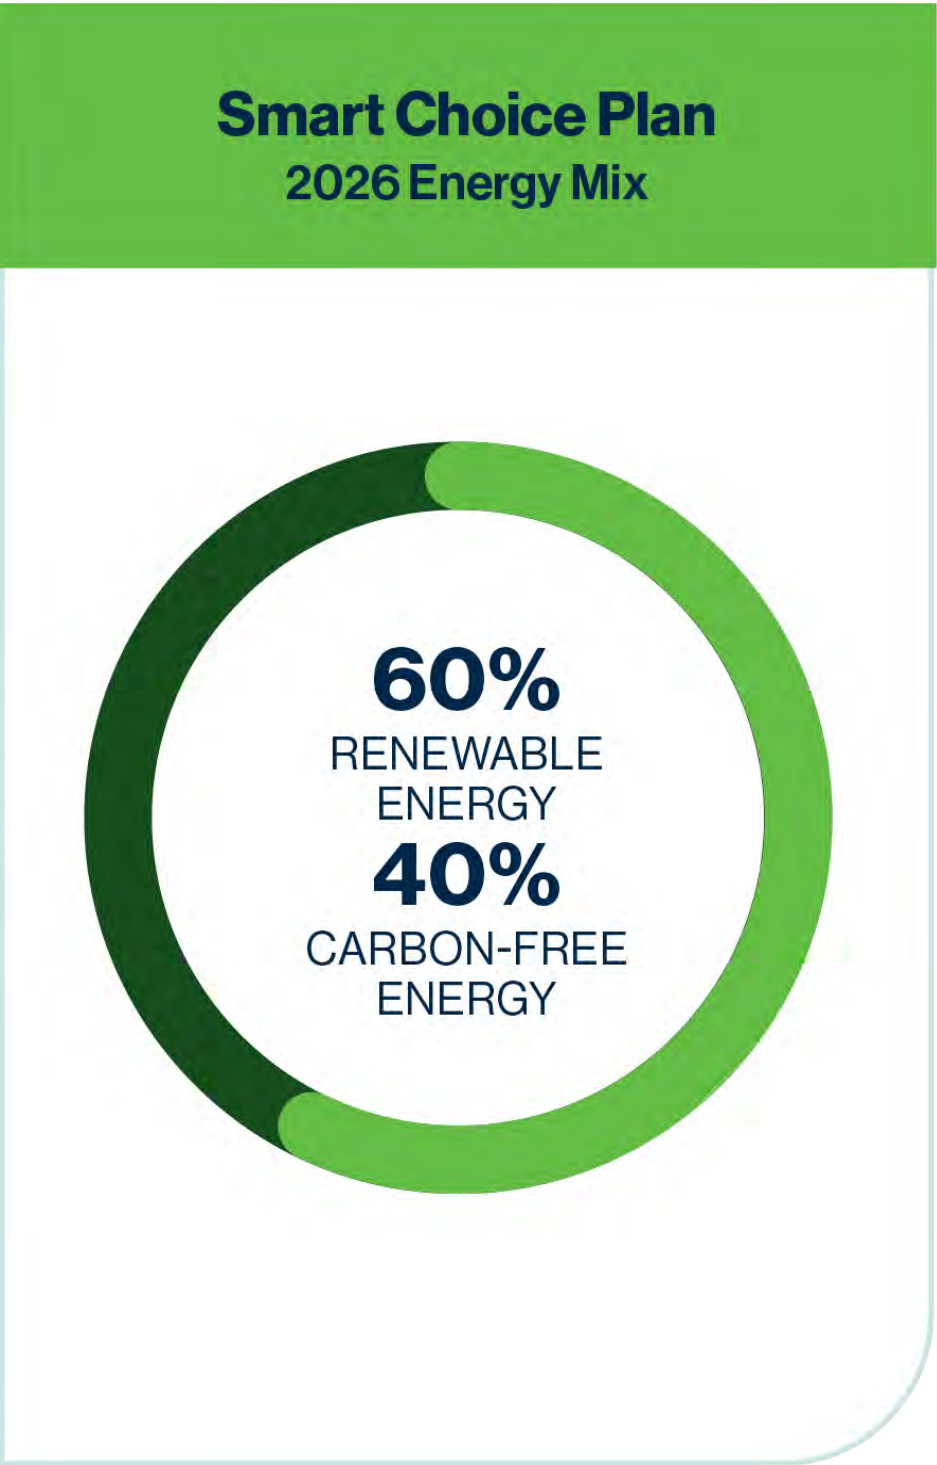

Revenue supports local grants, workforce initiatives, and energy-saving programs

Business Support Services

Rebates, energy efficiency programs, and partner support built to help you save energy and money

Basic choice is the starting point, not the finish line.

Unless you've already selected Smart Choice or 100% Renewable Choice, you're currently enrolled in Basic Choice. Opting up to Smart Choice or 100% Renewable Choice moves your business into stronger alignment with Irvine's sustainability goals and contributes to meaningful emissions reductions right here in the community.

100% Renewable Choice customers are Green P100NEERS

Businesses that opt up to 100% Renewable Choice also join a growing network of clean-energy leaders recognized through OCPA's Green P100NEER Program – a badge of credibility that signals your environmental commitment to customers, partners, and employees.

Becoming a Green P100NEER

- Co-branded social media and print ads
- Digital badge
- Newsletter article
- Window decal
- Q&A with your CEO or sustainability leader posted on OCPA's blog
- Video testimonial with your CEO or sustainability leader shared on OCPA's social media platforms

Real impact, backed by real results.

**81% renewable /
68% carbon-free**

power delivered
in 2024

**2 billion lbs of
CO₂ avoided**

the equivalent of
removing 223,000
cars from the road

**\$300K+
reinvested locally**

through community
grants to nonprofit
organizations

**Named one of the
Top Green Power
Providers in the
U.S. (NREL 2023,
2024)**

**These aren't projections – they're real benefits felt throughout our community,
created because customers like you chose more cleaner energy.**

What opting up means for your business.

Local Partnership → Direct access to a responsive, community-led clean-energy provider

Sustainability Alignment → Clear, reportable sustainability metrics that support your environmental goals

Brand Credibility → Recognition through the Green P100NEER program and alignment with Irvine's clean-energy leadership

Competitive Rates → Cleaner power at a generation rate competitive with SCE

Future Impact → Supporting the state's clean energy goals and contributing to a more resilient electric grid

Carbon emissions compliance is coming to California.

Large businesses operating in California will soon be required to report their climate footprint, including electricity-related emissions.*

How OCPA helps Irvine businesses prepare:

- 100% Renewable Energy = zero electricity-related emissions
- Switch from Basic or Smart Choice to 100% Renewable and your energy related emissions drop to zero in ~one month
- OCPA provides clear energy data and verification

*According to the Climate Corporate Data Accountability Act (SB 253)

Make the switch in minutes.

- 1 Visit ocpower.com/businessoptup/
- 2 Choose 100% Renewable Choice or Smart Choice (60% renewable/40% carbon-free).
- 3 Join the network of clean energy businesses moving Orange County forward.
