

IMPACT YOUR COMMUNITY.

Now accepting
applications for the
Community Advisory
Committee (CAC)

Driving an electric car, installing solar panels and composting are just a few of the things we can do to create a greener Orange County. But if you are truly keen on addressing climate change and want to be part of a new movement to bring more renewable energy to our community, the Orange County Power Authority Community Advisory Committee (CAC) needs you! As a volunteer CAC member, you'll work alongside neighbors and business owners to help shape the future of Orange County's community choice energy program.
